Expanded Regional Collaboration Allocations

Purpose and Methodology

Purpose

Expanded Regional Collaboration: DHS Funded Activities highlights major state, urban area, regional, local and territory initiatives designed to establish or enhance the regional collaboration which are funded with Department of Homeland Security grant programs including, but not limited to, the Homeland Security Grant Program (HSGP) and the Urban Area Security Initiative (UASI).

National Priority

Expanded Regional
Collaboration

Methodology

The projects described in this report have been reported directly to the Department of Homeland Security Federal Emergency Management Agency by state and local users of the Grants Reporting Tool (GRT) through the submission of their Bi-annual Strategy Implementation Report (BSIR).

Project type searches were performed on the fiscal years 2004, 2005, 2006 and 2007 BSIRs from the December 2007 calendar year submission. This report displays only the following Project Types: Establish/enhance regional response teams. The following keywords were used as the search criteria in the Project Type: regional collaboration, regional response team, regionalization, regional response, and regional task force. Previous submissions were used for the states and territories shown below due to the status of those submissions at the time of this report. FY 2004 Dec 2006: CO, DC, MD, and PR. FY 2004 June 07: ME. FY 2005 Dec 2006: PR. FY 2006 June 2007: PR. The following states and territories were not in Approved by FEMA or Submitted to FEMA status at the time of this report for Fiscal Year 2007: MD and PR. The data is subject to change before approval.

From this keyword search report, project titles, types, descriptions and other details were extracted to provide the narrative State Summaries provided herein.

For more information on the sources as well as specific caveats to the data contained in this report, see the section entitled "Notes and Sources."

Methodology

Expanded Regional Collaboration Allocations State Summary

Expanded Regional Collaboration: DHS Funded Activities Allocation Summary by state and territory for Fiscal Years 2004, 2005, 2006 and 2007.

| State | FY 2004 | FY 2005 | FY 2006 | FY 2007 | Total |
|----------------------|-----------------|-----------------|-----------------|-----------------|-------------------------|
| Alabama | \$4,224,392.84 | \$4,886,279.00 | \$1,953,425.00 | \$1,953,598.25 | \$13,017,695.09 |

| Fiscal Year 2007 | \$1,953,598.25 |
| Total | \$13,017,695.09 |

Current Initiatives

Project Title: Establish/enhance regional response teams

Project Description: It has been determined that there is a need for regional prevention and response equipment trailers that would provide needed resources for law enforcement agencies in the event of a terrorist threat or an actual terrorist incident. This funding will be utilized to establish two trailers that will be designed and equipped to provide the technical assistance needed to assist in the detection, prevention and response to CBRNE incidents.

2004 Funding: \$1,548,930.31

Project Title: Enhance Regional Law Enforcement Response Teams

Project Description: Sustain regional law enforcement response team by funding the operations and maintenance costs of the unit. Provide additional training and equipment to regional response team members to enhance their ability to operate in a CBRNE environment.

2005 Funding: \$432,798.00

Project Title: Mutual Aid Teams Sustainment

Project Description: Funding for training and other regional team sustainment needs.

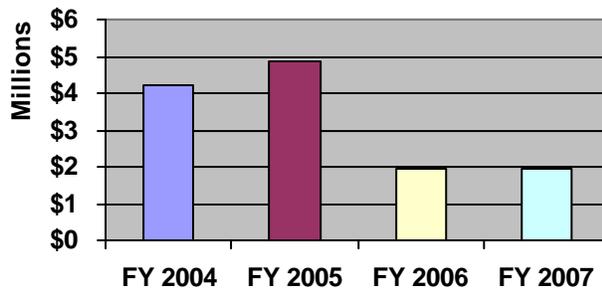

2006 Funding: \$645,053.75

Project Title: Enhance/Sustain Regional Law Enforcement Response Team

Project Description: Acquire specialized equipment to enhance the teams' ability to transport team equipment and respond to an all-hazards incident.

2007 Funding: \$200,000.00

| Fiscal Year 2007 | \$35,402.34 |
| Total | \$189,902.34 |

Current Initiatives

Project Title: Personnel Protective Equipment

Project Description: This project will allow the MMRS in Juneau meet program goals identified in the SEAK MMRS Plan. This protective equipment will enhance personnel capability in CBRNE detection, response and decontamination capability.

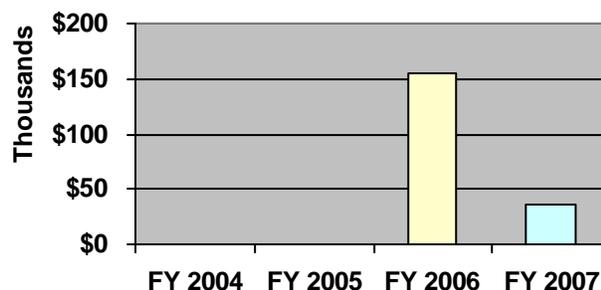

2006 Funding: \$100,000.00

Project Title: Hazmat Technician Training

Project Description: The Anchorage Fire Department Hazmat Team is one of the two primary statewide regional hazmat response teams. The regional response teams are coordinated through the State of Alaska Dept. of Environmental Conservation. The Anchorage Hazmat Team meets NIMS Type I requirements. To maintain current response capabilities, the AFD Hazmat Team requests Hazmat Technician Training. The course will focus on recognizing and evaluating a hazardous materials incident, organizing the response team, protecting response personnel, identifying and using response resources, implementing basic control measures, decision-making skills, and protecting the public. Topics will include chemical and physical properties of hazmat, toxicology, recognition and identification of hazardous materials, direct-reading instruments, standard operating procedures, personnel protection/safety.

2007 Funding: \$11,860.67

| Fiscal Year 2006 | \$4,037,768.00 |
| Fiscal Year 2007 | \$4,946,054.25 |
| Total | \$27,102,829.02 |

Current Initiatives

Project Title: Establish/enhance regional response teams /SHSP / UASI
Project Description: Enhance our capabilities to respond and provide technical assistance to hazardous material releases and possible security breaches of public water systems statewide and in multiple locations. These additional resources would be pre-positioned/deployed for use during times of increased security threat throughout the state. Resources available to federal, state and local jurisdictions upon request and for enhanced response capability along the Arizona-Mexico border.

2004 Funding: \$200,000.00

Project Title: Rapid Response Team

Project Description: The Mesa Police / Fire Department will use this funding to train Rapid Response Team members in various response capabilities. The Mesa Police Department RRT can be deployed throughout the region and as needed in throughout the State.

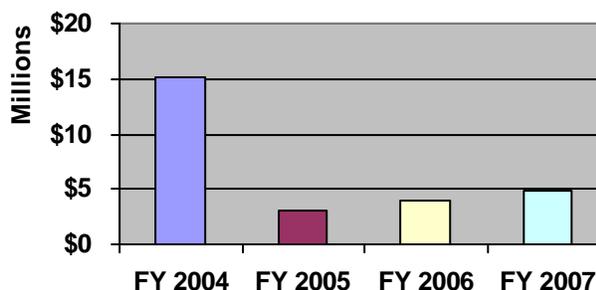

2005 Funding: \$500,000.00

Project Title: Implement Regional Training to Expand Regional Collaboration

Project Description: Utilizing trainings as a means of establishing a higher level of interoperability amongst all stakeholders, including : Emergency Managers, first responders, civilian VOAD agencies, Citizens Corps programs and private industry. The South region will continue educational classes offered by ADEM.

2006 Funding: \$15,000.00

Homeland Security Grant Program and UASI Allocations

Project Title: Airborne Regional Response Teams and Prevention Investment

Project Description: by increasing the number of regional response teams, we will be able to decrease response times to large incidents. Tucson airborne RRT and prevention investment will address the gap that exists in the delivery of personnel and equipment in the Tucson/Pima county area. The aircraft will be used to monitor large areas for CBRNE incidents and will be used for southbound interdiction to deny terrorists the ability to smuggle their agents, funds or equipment across the Arizona/Mexico border. The ARRT and P will provide airborne capability that will allow delivery of personnel.. . Funding will support, maintain, and improve the south region's RRT program and it's ability to respond to terrorist and catastrophic events.

Current Initiatives

Project Title: Enhance regional response capabilities through enhanced resources and equipment

Project Description: Identify, procure and deploy enhanced resources and equipment for response to WMD incidents in the Long Beach Urban Area. The focus is on response vehicles for transport, PPE for force protection including SCBA, specialty rescue equipment, field support including mobile kitchen and detection.

2004 Funding: \$6,174,256.00

Project Title: (D) Establish/enhance Regional Response Teams and Provide Equipment

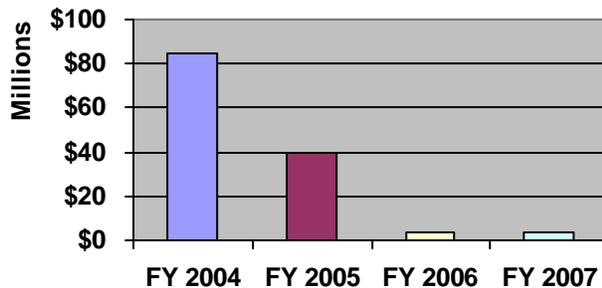

Project Description: Acquire and deploy standardized personal protective equipment and apparatus for first responders to support multi-casualty and mass decon operations in the Urban Area and expand discretionary equipment funds to procure other critical equipment that addresses high impact needs identified in the Urban Area Strategy. This project supports State Goal G.

2005 Funding: \$7,063,051.00

Project Title: Project A-Strengthen regional preparedness and collaboration

Project Description: Strengthen regional preparedness and collaboration to prevent, mitigate, respond to, and recover from catastrophic events of national significance and other all-hazard emergencies. This effort will consist of an Operational Area wide effort to build capacity through the development of regional plans and protocols. These plans

Homeland Security Grant Program and UASI Allocations

Current Initiatives

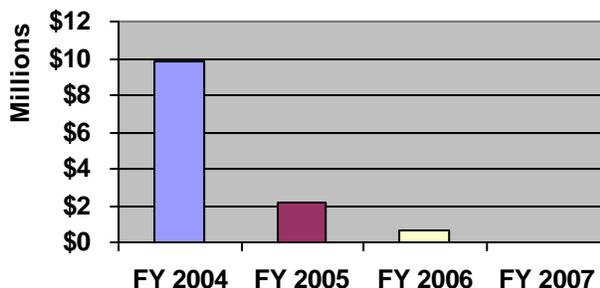

Project Title: Establish/enhance regional response teams
Project Description: Funding will be used to establish a minimum response capability for HazMat response in counties that do not currently have capability. Funding will increase the ability to survive and operate as a region in the event of a WMD attack. The regional goal is to purchase standardized equipment and to reduce the cost of training and maintenance.
2004 Funding: \$3,035,182.05

Project Title: Establish/enhance regional response teams
Project Description: Colorado will build capacity to equip, train, and effectively manage first responder resources for terrorism events.
2005 Funding: \$420,964.00

Project Title: SHSG-7EM768117-C-Responder Safety and Health
Project Description: Purchase proper PPE and tactical equipment for hazmat team members that participate as part of regional teams. Also provide funding for a full-scale hazmat exercise involving all 5 regional teams.
2006 Funding: \$67,663.00

Project Title: Issue 51: Enhance Regional Specialty Teams (FDLE)

Project Description: Issue 51: Enhance Regional Specialty Teams - Equipment for SWAT and Bomb teams including encrypted remote firing and CBRNE foam mitigation equipment

2004 Funding: \$222,295.00

Project Title: Issue 04 - All Discipline Multi Agency Coordination System Build-out in Each Region

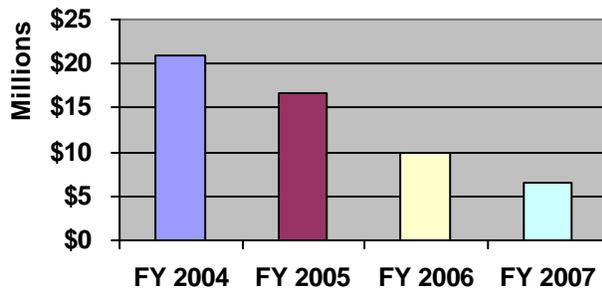

- Project Description:**
- Continued build-out of the State’s regional response teams
 - Statewide/Regional helicopter downlink system (regions 1, 2, 3, 5, & FWC) to provide an interoperable method of real time video coverage of all hazards incidents. Video link set up in all the County EOC's, mobile command posts as well as briefcase monitors. Using virtual private networking on the Internet what is seen from the helicopter can be viewed anywhere in the State.
 - SWAT/EOD Team Regional planning conferences
 - Cargo trailer for the Northeast Florida Regional Planning Council that will be used to transport materials related to Domestic Security exercises.

2005 Funding: \$3,268,628.00

Project Title: Issue 23 - Critical Needs for Urban Search and Rescue (USAR) and HAZMAT / WMD

Project Description: The funding provided by this item will address critical equipment shortfalls (gap) in Statewide USAR and Haz Mat/WMD capability. Funding is needed to complete equipment purchases created by funding deficiencies. This equipment provides necessary

Homeland Security Grant Program and UASI Allocations

capabilities to the current teams to ensure mission critical functions are met. The USAR needs were further justified by the hurricane responses of 2004 & 2005. The justification for the Haz Mat/WMD equipment is based on meeting the State strategy requirement defined for Type II Haz Mat/WMD Teams.

2006 Funding: \$536,630.00

Project Title: Issue 20 SWAT and EOD - GAP (FDLE)

Project Description: Equipping designated regional specialty response teams to established build out levels will ensure an enhanced and uniform response capability statewide and will further fill an existing GAP in the state's ability to respond to CBRNE incidents. The ability to safely respond and investigate these types of incidents will significantly decrease risks posed to responders and potentially mitigate additional potential threats.

Current Initiatives

Project Title: Enhance Area 7's primary CBRNE response team - Atlanta Fire Department

Project Description: The Atlanta Fire Department serves as the primary CBRNE response team for the area. Some calls require the team to leave its home territory and thereby leave behind equipment that could expedite response and determination. The department is requesting detection equipment and PPE to be used with the response team.

2004 Funding: \$499,245.00

Project Title: Law Enforcement Chem Bio Response Teams

Project Description: The Gwinnett County Police Department is part of an initiative to develop a pilot Law Enforcement Chem Bio Response Team using US DHS HSGP Funds to equip one 8-person Law Enforcement Team that will respond to Chemical, Biological, or Nuclear (CBRN) situations in the county and adjoining counties. The Gwinnett PD will sign Memorandums of Understanding with the counties, including cities, that adjoin Gwinnett County the team is located agreeing to respond and render assistance to any CBRN situations within those counties and municipalities. The Gwinnett PD will be responsible for securing the necessary MOUs and for handling all internal issues with setting up the team.

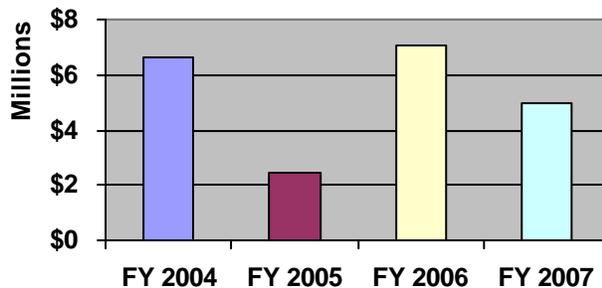

2005 Funding: \$245,000.00

Project Title: City of Saint Paul Regional Response Teams - Collapse Structure Rescue

Project Description: To develop a regional collapsed structure rescue capability within the city of St. Paul. The project will establish a Regional Collapse Structure Rescue Team, train Saint Paul Fire Department personnel to the Collapse Structure Rescue Technician Level, and build procedures and plans that integrate this team into a regional capability with other teams in the

metropolitan area.

2004 Funding: \$99,999.00

Project Title: City of Minneapolis - Collapsed Structure Team Training

Project Description: To enhance the training of the Minneapolis Collapsed Structure Rescue Team.

2005 Funding: \$1,000,000.00

Project Title: City of Edina - CSR

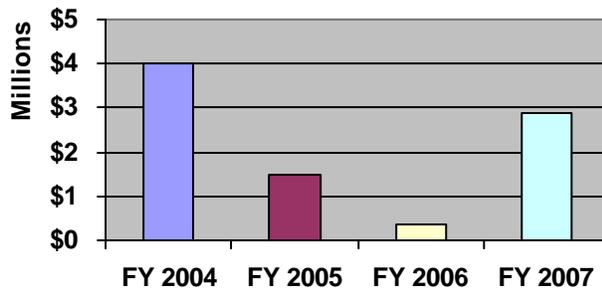

Project Description: Collapsed structure team

2006 Funding: \$75,000.00

Project Title: Minnesota Department of Military Affairs

Project Description: Cooperate with law enforcement agencies throughout the state, to develop and maintain an efficient and expeditious sharing of information and intelligence that could preempt possible terrorist attacks.

|--|------------------------|
| Fiscal Year 2004 | \$14,670,625.77 |
| Fiscal Year 2005 | \$2,525,652.98 |
| Fiscal Year 2006 | \$2,290,267.05 |
| Fiscal Year 2007 | \$3,379,492.00 |
| Total | \$22,866,037.80 |

Current Initiatives

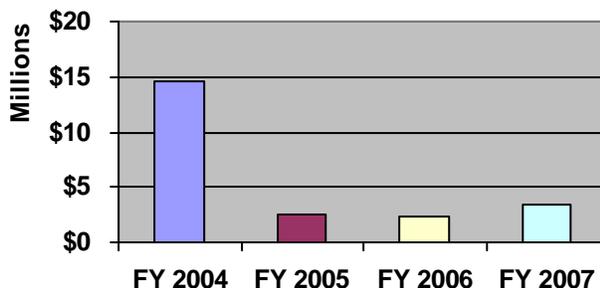

Project Title: Establish/enhance regional response teams
Project Description: Facilitate multidisciplinary working groups, prepare regional response plans, procure emergency response support equipment, conduct training and exercises to measure readiness posture and determine future needs.
2004 Funding: \$4,888,067.00

Project Title: Establish/enhance regional response teams
Project Description: Boone County Fire Protection District 2005 Homeland Security Grant Request Justification The purchase of a Hazardous Materials Response vehicle by Boone County Fire Protection District utilizing Homeland Security Grant funds will have direct impact on the Missouri State Homeland Security Strategy Plan, goals #1 and #2, relating directly to enhancing preparedness and response to CBRNE events not only in Boone County and Central Missouri, but throughout the State of Missouri. Goal #1, Objective 1.5, Implementation Step 1.5.b; speaks to the development of Homeland Security Response Teams (HSRT) and strengthening the working relationships among local, state, federal and private sector agencies to prevent incidents and ensure effectiveness of response and recovery operations. Additionally, Objective 1.8, Implementation Step 1.8.a details SEMA to refine and prioritize equipment needs based on disciplines; again ensuring adequate interoperable equipment is available for response.
2005 Funding: \$150,000.00

Project Title: Urban Search and Rescue
Project Description: The St. Louis UASI Urban Area Work Group decided that the

Homeland Security Grant Program and UASI Allocations

region needed to be enhanced by the creation of a Urban Search & Rescue (US&R) response capability. This team needed additional rescue equipment & technical training to become an all hazards US&R team with capabilities to respond anywhere within the region. A Rescue Task Force was formed that developed an enhancement plan that called for the creation of five heavy rescue or US&R teams that would be strategically staged in the St. Louis region. The task force developed a budget and equipment list for each of these teams. This project created five fully trained & equipped US&R teams capable of deployment & sustainability during any disaster. Sustainment funds are needed to ensure a well trained & prepared force is kept in operational ready status.

2006 Funding: \$116,485.51

Project Title: Establish/enhance regional response teams

Project Description: Develop and implement teams to operate in environments resulting from CBRNE incidents. Teams will train and be outfitted for the appropriate levels of both local and statewide responses.

2007 Funding: \$1,300,000.00

Current Initiatives

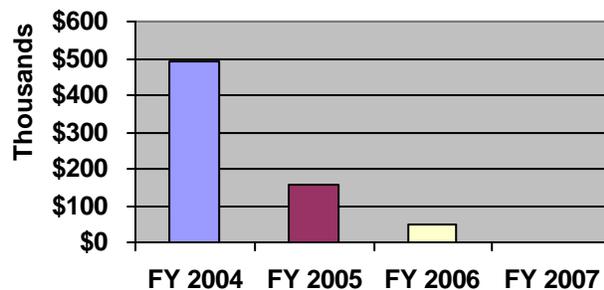

Project Title: Establish/enhance regional response teams
Project Description: Acquire, train, and exercise with equipment necessary to improve the State of Nebraska's ability to detect, identify and recovery from a terrorist incident involving chemical and/or biological WMD.

2004 Funding: \$165,078.76

Project Title: Urban Fire Departments

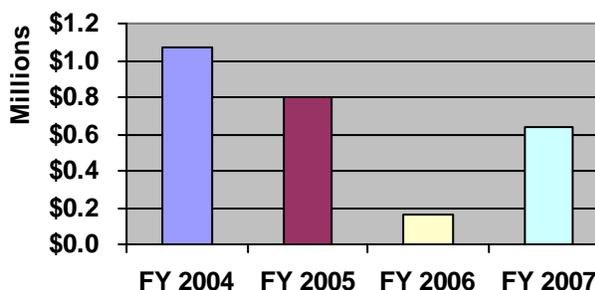

Project Description: Metro Omaha CERT – Community Emergency Response Team Program is requesting funding to mentor, support and purchase needed equipment to facilitate the creation/growth of CERT programs in Sarpy and Washington Counties. - \$100,000 Omaha Fire Department is requesting hardware and software applications needed to fully implement the mobile data terminals provided through the 911 Communications Center. This request includes the needs of all Fire Departments in Douglas County. – \$498,072 Omaha Fire Department Mobile Command Post, a special-purpose vehicle command post to mitigate a CBRNE incident - \$150,000 Omaha Fire Department Self-Contained Breathing Apparatus equipment to response to all-hazards or CBRNE incidents. Will replace Fire’s outdated equipment for HazMat teams. - \$48,992

2005 Funding: \$797,064.00

Project Title: Region 11 2006 Homeland Security Grant-Haz/Mat

Project Description: Region 11 is one of the Memorandum of Understanding areas in the State of Nebraska. These MOU cities/regions have agreed to provide hazardous materials response to the State

Homeland Security Grant Program and UASI Allocations

of Nebraska. Region 11 continues to pursue the highest level of response and preparedness to hazardous materials incidents and will be pursuing funding from the 2006 Homeland Security Grant to continue their level of response and expand their service. It is our desire to keep equipment up-to-date and training current through these dollars.

2006 Funding: \$116,200.00

Project Title: CBRNE WMD/HazMat Equipment and PET- Omaha Fire

Project Description: This initiative will continue to support the strengths identified during the program and capability review. The strengths identified were the 10 existing regional MOU response jurisdictions, the UASI, the State Emergency Response Team (SERT) and the National Guard's Civil Support Team. These strengths will be supported through the 2006 Investment that expanded regional collaboration process identifying eight Planning, Exercise and Training regions that includes the Urban Area Security Initiative (UASI). The weaknesses identified were a lack of well defined program guidelines or procedures and information dissemination. This initiative helps to mitigate these shortfalls through regionally coordinated planning, resource typing and inventory, training, and information dissemination.

2004 Funding: \$1,134,539.00

Project Title: State Homeland Security Program II-A-5
Project Description: Enhance the technical rescue training capabilities and program offerings statewide. These resource enhancements provide an efficient and effective method by which homeland security funding will directly benefit the local emergency service provider.
2005 Funding: \$144,030.00

Project Title: Establish/enhance regional response teams
Project Description: The county of Rockland law enforcement agencies would like to continue its countywide approach to combating terrorism by enhancing our current regional programs that enable the collaboration of multi-jurisdictional initiatives. The funding in the 2006 LETPP program will be geared to enhancing our anti-terrorism and intelligence units. Concentration will be given in the area of training our regional teams and in intelligence gathering and investigations, especially focusing on gang activity which is prevalent with terrorist activity. In addition, money will also be utilized for possible Orange/Yellow Alert protocols and backup personnel for any public emergency situations. Two other areas of importance Rockland is focusing on is the

Homeland Security Grant Program and UASI Allocations

speedy dissemination of information via our police information network and enhancing our certified Bomb Squad with mandatory equipment.

2006 Funding: \$98,000.00

Project Title: Establish/enhance regional response teams

Project Description: This investment will fund equipment for specialized units within the MVPD to prevent, deter, and respond to acts of terrorism. This investment requested funds for field-based radiological and chemical detection and response equipment. At present no Police Department in Westchester County, nor any element of the WCIRT, has an armored personnel carrier (APC) immediately available and capable of detecting CBRNE material, safely transporting a tactical element into a hazardous area to tactically mitigate a CBRNE incident, or carry out a rescue mission in a hazardous environment, should the situation arise. Additionally, an APC of this type could be deployed along with a properly trained and equipped tactical element to act as a deterrent to terrorist activity. Deployment of this type would parallel the NYCPD ESU Hercules Units.

Project Title: Regional Homeland Security Initiative

Project Description: Developing NorthEast Regional HM Team response capabilities. Will develop awards from which County agencies will utilize FY04 SHSP regional funds to develop regional projects that enhance their combined abilities to prepare for and respond to terrorist events.

2004 Funding: \$260,000.00

Project Title: FY05 Regional USAR Homeland Security Initiative

Project Description: Developing a SAR Team to prepare for and recover from terrorist and catastrophic events

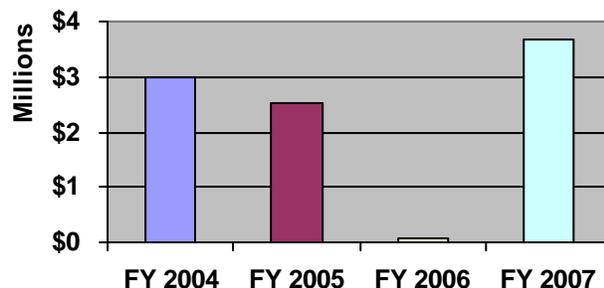

2005 Funding: \$75,292.00

Project Title: Enhance Radiological Response Capabilities

Project Description: Using FY 04 MMRS funding, the Toledo / Lucas County MMRS began development of a radiological response team. This team was developed after identifying a capability gap in the regional response to a radiological emergency. A portion of the allocated FY 04 MMRS funding has been used to begin the purchase of the radiological response equipment identified by the equipment subcommittee. Funds from the FY 06 MMRS grant will be used to purchase and Area RAE Monitor. Regional hospital radiological personnel, regional fire departments, and the Medical University of Ohio are participating agencies.

2006 Funding: \$35,000.00

Homeland Security Grant Program and UASI Allocations

Project Title: Urban Search and Rescue

Project Description: This project is designed to fill equipment gaps identified through training and cooperative meetings between Hamilton County USAR and Butler County USAR it will allow for seamless integration during large-scale events. Both these teams provide first strike capabilities for structural collapse and other technical rescue incidents in their respective counties and the region. This project will provide increased capabilities in building shoring and support operations that will transfer to more rapid search and rescue operations.

Project Title: D - Establish/enhance regional response teams

Project Description: Enhance our response capabilities throughout District 3 and establish a fully trained and equipped regional CBRNE

Team with USAR capabilities ready to respond anywhere in the District.

2004 Funding: \$1,869,163.68

Project Title: A- Establish/enhance regional response teams

Project Description: This project continues to purchase needed safety equipment for our Haz-Mat Team. This also gives money to purchase much needed equipment to train our present team. This money will be used by Hardin County Sheriff's Department, Hardin County Fire Department, Hardin County Emergency Ambulance Service, Savannah Fire Departments all these departments have personnel on our Haz-Mat Team. This money will be used to purchase equipment such as suits for training the team, the rest of the money will be used to purchase SCBA's and SCBA bottles (4-Complete SCBA's & 4 extra bottles).

2005 Funding: \$25,925.00

Project Title: Project C ---Enhance Regional Regional CBRNE Response Team

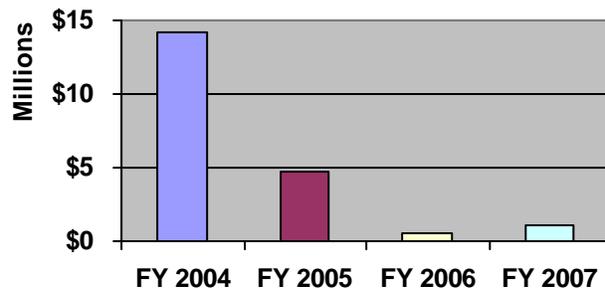

Project Description: Increase capabilities of mass rehab and logistics team in support of Regional Response

2006 Funding: \$15,517.68

Project Title: Project B CBRNE Regional Response Team

Project Description: Continue to develop the county CBRNE response team to be part of a district or regional task force. To purchase a vehicle for the transport of

| Total | \$71,273,886.88 |

Current Initiatives

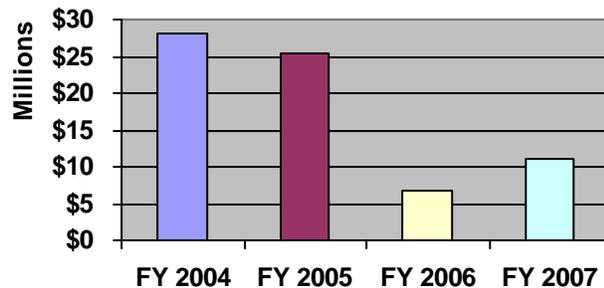

Project Title: Establish/enhance regional response teams
Project Description: Equipment to enhance regional search and rescue team, EMS mass care response, and law enforcement special operations and explosive device mitigation.
2004 Funding: \$143,478.50

Project Title: Establish/enhance regional response teams
Project Description: Equip, train and exercise a team of specialists who can respond to all Hazards in the Alamo Area Council of Governments Region. Assess the needs of the current HAZMAT/WMD teams in the region and determine what additional equipment and training would be required to support other teams. Work toward regionalization of these teams by training and working together and developing a unified response protocol. Purchase additional equipment to adequately equip the HAZMAT/WMD team and ensure responders are properly protected. Ensure that all NIMS requirements are implemented.
2005 Funding: \$4,355,409.49

Project Title: City of Dallas USAR Enhancement
Project Description: This Investment will allow for the acquisition of Logistical Support, Urban Search and Rescue (USAR) equipment necessary to achieve full capability of a Type III USAR Task Force, currently being developed with funds from prior grant periods. This (Regional) USAR Task Force is modeled after the Federal Emergency Management Agency’s (FEMA) USAR Task Force plan

Homeland Security Grant Program and UASI Allocations

and additional information on the concept will be detailed in following paragraphs. This equipment will raise the level of the Task Force's capability to self-sustain at an incident for 72-hours. Policies and procedures, deployment strategies, operational guidelines, etc. for the (Regional) USAR program will parallel those considerations defined in the FEMA National Urban Search & Rescue Operations Manual. This Investment will enhance the ability of the Task force to perform USAR disaster response operations during catastrophic events, major disasters or emergencies.

2006 Funding: \$899,100.00

Project Title: Regional Technical Rescue Training

Project Description: This project supports the goal of enhancing our response to a WMD event that requires a confined space rescue by allowing members of the Coppell Fire Department to travel to TEEEX and receive advanced levels of training on confined space rescue and trench rescue. Upon their return, these members will then share the information they received in the form of training for the rest of the department. In addition, we will offer this training to other departments that are unable to take advantage of the training from TEEEX. This training supports the project type by enhancing regional responders capabilities and knowledge while pairing advanced knowledge and skills of the Coppell Fire Department with the advanced technology and equipment that the department has purchased in previous grant cycles. This funding will send 24 Coppell firefighters to advanced rescue techniques training to learn the latest techniques and technologies. Description condensed due to space.

Current Initiatives

Project Title: Establish/enhance regional response teams
Project Description: Provide for Critical multi-jurisdictional interoperability to reinforce local and state supported training and planning, as well as sustained operations on the event of a terrorist attack by integrating and expanding equipment to allow for video teleconferencing between state agencies. Improve prevention,

response and recovery potential in the event of a WMD or terrorism incident by providing adequate equipment to responder staff.

2004 Funding: \$108,105.00

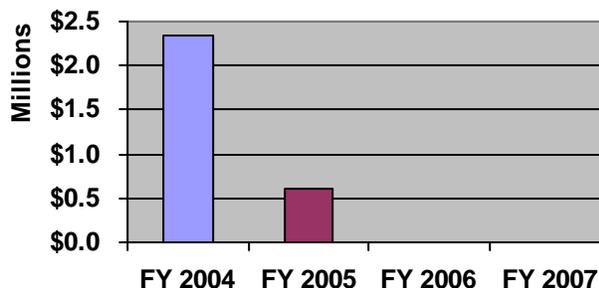

Project Title: Enhance Regional Response Teams

Project Description: This project will continue to build a regional response capability in accordance with the Commonwealth of Virginia State Strategy Goal #5 by purchasing additional equipment for our Roanoke/Roanoke County Technical Rescue Team. The Commonwealth of Virginia has designated our team as one of the State's regional technical rescue teams to respond to natural and man-made disasters. Currently, team members must utilize their structural or wild land firefighting gear while responding.

This type of gear does not offer full protection for the team members. In addition, these rescue situations can result in the responder becoming dehydrated.

This project would also purchase individual personal hydration systems for all personnel that respond to these types of incidents. The addition of this equipment to our existing unit would provide for the safety and health of our responders while
